### Report expiration date

*The ChemCheck Summary Report expiration date is either the date of expiration of the Formulator's Gateway subscription OR the first product expiration date of all individually listed products in the product portfolio selection - whichever is earlier.*

### Product expiration date

*The individual product expiration dates in the product portfolio selection reflects the expiration date based on the certification selected as per described hierarchy. The Chemicals to Zero Level and the ZDHC MRSL Level are the selected based on the highest available Chemicals to Zero Level from all available certifications. If multiple certifications with the same Chemicals to Zero Level are available the certification with the highest ZDHC MRSL Level is selected.*
